

# LIFE RENDER - Promoting the implementation of Product Environmental Footprint Methodology in the European Dairy Sector

LIFE16 ENV/ES/000173

## Introduction to LIFE RENDER

Amaia Uriarte – INKOA

LIFE RENDER Final Event

## OBJECTIVE

To promote the implementation of the **Product Environmental Footprint Methodology** at European level as key tool to assess and to communicate life cycle environmental performance to business consumers and stakeholders.

**In Extenso**  
Innovation Croissance

**ania**  
Association Nationale des  
Industries Alimentaires

**DURATION:** 4 Years (04/09/2017 – 30/09/2021)

**BUDGET:** € 1.717.552

**PROJECT LOCATION:** France, Spain & Portugal

## LIFE RENDER STRATEGY

### DEMONSTRATION - FRANCE

6 Dairy Companies  
32 PEF Studies

Transfer of project outcomes  
European F&D Associations / Companies

PEF & Dairy PEF CR Guides  
DDBB Environmental Technologies

### REPLICATION - SPAIN, PORTUGAL & GREECE

5 Dairy Companies  
10 PEF Studies

10 Environmental Measures  
implemented

Hot spots & critical chain elements

Environmental measures to lower EF

## Large testing of the Dairy PEFCR method and supporting tools

11 dairy companies of 4 different countries, 42 dairy products of the 5 dairy products subcategories

- ✓ Extended feedback of dairy companies and also of environmental experts, including detected strengths and weaknesses, has been shared with the **Technical Secretariat of the Dairy PEFCR** with the aim of supporting the improvement of the method in future reviews.
- ✓ Increased awareness about Product Environmental Footprint in the European F&D Companies.

More than 100 companies engaged through technical showcases as well as training programmes to guide them on the execution of PEFCR-compliant studies.

## Promoting knowledge transfer to the Agrifood sector

Other F&D sectors to encourage the development and experimentation with sector specific PEFCR tools.

Other European Countries...

# Thank you!
