- The **format** of the session. The default setup is theatre style. If you would prefer a different layout (e.g. roundtables or group work), we will need to inform the organisers in advance. In that case, please let us know the number of tables needed. As for any materials, we can follow up at a later stage.

It's okay the theatre style for the until the coffee break and then after the coffee break round table format if it is possible.
